

## Niteworks®

## Ordering Details

#0036

Niteworks® is a revolutionary dietary supplement containing an exclusive blend of L-Arginine and L-Citrulline with other ingredients that trigger the production of healthful Nitric Oxide. This is important, because as you age, production of Nitric Oxide, the naturally occurring compound which keeps blood vessels young and flexible, declines.

Scientists have discovered that Nitric Oxide supports circulation throughout the body. Increased Nitric Oxide production improves circulation to the body's vital organs, including the heart and brain. Discoveries relating the Nitric Oxide led to Dr. Louis Ignarro and two other scientists winning the Nobel Prize† in Physiology or Medicine in 1998.

Herbalife teamed with Dr. Ignarro to develop Niteworks® a lemon-flavoured powder mix. Niteworks® is formulated to help you create more life-supporting Nitric Oxide during the night, when Nitric Oxide levels are naturally at their lowest.

Exclusive to Herbalife, patent-pending Niteworks® takes Cellular Nutrition to the next level with targeted nutrition that helps your arteries stay youthful, support your overall cardiovascular health and slows down your body's internal clock.

## Supplement Facts

Serving Size: 2 Scoops (about 9.7 g) Servings Per Container: 30

	Amount Per Serving	% Daily Value**
Calories	30	5%
Vitamin C (As Ascorbic Acid)	500mg	883%
Vitamin E (As d-alpha tocophenyl acetate)	400 IU	1333%
Folic Acid (As Folate & Calcium Folate)	400 mcg	100%
Proprietary Blend		
L-Arginine, L-Citrulline	5.2 g	
Lemon Balm Extract	50mg	
Alpha Lipoic Acid	10 mg	

## Discussion Points

- **Nitric Oxide benefits:** Through vascular nutrition, you can increase the production of Nitric Oxide, which exercises or expands your vessels, increasing their youthful elasticity.\* In addition, Nitric Oxide is an important biological messenger that causes a cascade of benefits at the cellular level, which can improve circulatory, immune and nervous-system function. Nitric Oxide influences the functioning of virtually every organ in the body, including the lungs, liver, stomach, brain and of course, the heart.
- **Nutrition that counts:** Exercise and certain foods promotes Nitric Oxide production in your body. Niteworks® is designed for night time consumption when your body is producing the least amount of Nitric Oxide from food and exercise. However, this product can also be used during the day. Regardless, it would be difficult to ingest the same amount of L-Arginine from food as your body gets from Niteworks®.
- **Great taste:** Blend Niteworks® powder mix with 8 oz. of water or sparkling water for a refreshing lemon-flavoured drink. For a different flavour combination, mix with your favourite juice. Be sure to use the recommended two scoops of powder mix for optimum effectiveness.
- **Exclusive patent-pending formula includes:**
  - Proprietary combination of L-Arginine and L-Citrulline to promote Nitric Oxide production
  - Comprehensive antioxidant system to protect Nitric Oxide levels
  - Alpha Lipoic Acid to enhance the activities of the antioxidant system
  - Folic Acid to protect the vascular system
  - Lemon Balm to soothe and relax you

## Did You Know?

In 1998, along with two other scientists, Dr. Louis Ignarro received the Nobel Prize† in Physiology or Medicine for discoveries concerning nitric oxide as a signalling molecule in cardiovascular system

## Fast Facts

- Supports blood vessels function for healthy vascular function
- Promotes a healthy cardiovascular system
- Enhances blood flow to support function of heart, brain, and other organs
- Maintains a youthful body system for superior performance
- Wake up feeling rejuvenated
- A citrusy lemon-flavoured powder that mixes with water or juice-based beverages
- 30-day supply

**Other ingredients:** Citric acid, natural flavor, taurine and sucralose (non-nutritive sweetener). Rich in antioxidant vitamins C and E.
